Because you care about your care

You can plan now for the level of care and comfort you deserve in case of an accident or illness that requires assistance and care during recovery.

Expecting the unexpected

Whether you are working or retired, it's important to consider the cost of health care and how an unexpected accident or illness could impact you and your family's finances.

Health care is constantly changing and the costs are increasing. Hospital confinement is expensive, sometimes resulting in shorter hospital stays followed by costly rehabilitation and therapy.

At least **70%** of people over 65 will need long-term care services and support at some point.

Long-term care services and support refers to an individual receiving assistance with Activities of Daily Living (ADLs) such as bathing, continence, dressing, eating, toileting, and walking.

Even those who lead a healthy lifestyle may be at risk of experiencing an unexpected need for recovery care due to the onset of health issues and disabilities.

The U.S. government estimates that the **average cost of nursing facility care is approximately \$72,000 per year.**

Freedom to choose

Who would choose the nursing facility, hospital, or home care provider for your recovery and care?

You would. Just the thought of not being in our own surroundings and in control of our lifestyle is uncomfortable. But, an accident or illness may leave you with no other choice for recovery and care.

A Recovery Care insurance plan gives you the freedom to choose how you want to recover and where. You choose the nursing facility or the hospital or the provider (based on the plan options selected).

Our solutions for protection. Your choice.

Benefits are paid directly to you, or a medical provider that you designate, and are paid in addition to any other health care coverage. The benefits and premiums for this plan will vary based on the plan options selected.

Plan benefits

Daily Nursing Facility* Including Assisted Living and Bed Reservation

The benefit is available:

- up to \$300 daily maximum

Recovery Care Insurance Plans

▼ Payment modes

Annual.....	Annual x 1
Semi-annual.....	Annual x .52
Quarterly.....	Annual x .265
Monthly.....	Annual x .08333

▼ Guaranteed renewable

You have the right to renew your policy for consecutive terms by paying the required premium before the end of each grace period. Subject to the Policy and Coverage Termination provisions detailed in the policy.

▼ 30-day free look

Return any policy for any reason within 30 days after receipt for a full refund of all premiums paid.

▼ Payment options

You have a choice among several payment options or modes for paying your premium – annual, semi-annual, quarterly, and monthly bank draft. Each payment mode, other than annual and monthly bank draft, results in higher total yearly premium costs. Reasons for higher costs include added collection and administrative costs, time value of money considerations, and lapse rates.

The annual and monthly bank draft modes have the same total yearly premium costs. As a result, there is a time value of money advantage to you for paying monthly versus annually. However, there may be other advantages to you for choosing an annual payment based on your preferences. Your agent can explain the differences in modes and help you decide which is best for you. You have the right to change your payment mode, among the modes available, during the life of your policy.

Definitions

▼ Activities of daily living (ADL)

Bathing, continence, dressing, eating, toileting, and transferring are all activities of daily living.

▼ Assisted living facility

A place which is a separate facility or distinct part of a health care facility, which is licensed by the state. It provides continuous room and board, assistance with daily living activities, has at least one trained staff member actively on duty in the facility to provide supervision and care, has formal arrangements with a physician or nurse to furnish medical care, and has appropriate methods to assist in handling and administering medications.

▼ Cognitive impairment

The deterioration or loss of intellectual or mental capacity, as determined by clinical evidence and standardized tests, resulting in the insured's need for the continual assistance of, or supervision by, another person, including supervision and assistance that is necessary to protect the health and safety of the insured or others.

▼ Confined/confinement

The insured is formally admitted to a nursing facility, assisted living facility, or a hospital on an inpatient basis or receives necessary and continuous observation in a hospital for at least 24 hours.

▼ Home care services

The professional, personal care, and homemaker services

the insured receives from a home care provider in the insured's home, including nursing care, physical therapy, occupational therapy, speech therapy, nutritionist services, meal preparation, laundry, light housekeeping, shopping for food, medications or medical supplies, and transportation to and from appointments.

▼ Nursing facility

A place which is a separate facility or distinct part of a health care facility which is licensed as a nursing home and provides continuous accommodations to persons who require daily nursing care services, and maintains records of each resident.

▼ Period of care (hospital benefit)

The period of time that begins with the first day of hospital confinement due to a covered illness or injury. It ends when the insured is out of the hospital and does not require medical care for 60 continuous days.

▼ Period of care (nursing facility benefit)

The period of time that begins with the first day of nursing facility or assisted living facility confinement. It ends following a period of 180 days during all of which the insured is not confined to a nursing facility or assisted living facility, is able to perform five or more ADLs without the hands-on assistance of another person, and if the insured is cognitively impaired, the insured did not require or receive the assistance or supervision of another person.
